EDUCATION

Birla Institute of Technology and Science, Pilani

B.E. in Electrical and Electronics Engineering

Rajasthan, India

2023 – 2027

EXPERIENCE

INRIA

Research Intern

Jun 2026 – Present

Sophia Antipolis, France

- Research Intern with the STARS team, working on video generation methods under Dr. François Brémont.

The University of Edinburgh

Research Intern

Aug 2025 – Feb 2026

Remote

- Neuro-symbolic AI and LLM alignment, using interpretability methods to improve controllability and instruction-following under Prof. Vaishak Belle.

Manifold Research Group

Research Fellow

Jul 2025 – Feb 2026

Remote

- Worked with researchers from Georgia Tech and Tufts University on benchmarking multimodal foundation models for zero-shot generalization as part of the MultiNet project.

Norwegian University of Science and Technology (NTNU)

Research Intern

Feb 2025 – Nov 2025

Remote

- Bias mitigation and controlled steering in diffusion transformers using mechanistic interpretability, alongside ICAO-compliant image generation and presentation attack detection under Prof. Kiran Raja.

COMPETITIONS & SERVICE

Second Competition on Presentation Attack Detection on ID Cards – IJCB 2025

June 2025

Team IDCH, NTNU

- Ranked 3rd in Track 1 for ID document attack detection. Link to the published paper

Reviewer, FAGEN Workshop at ICML 2026

May 2026

SKILLS

Languages: Python, C++, C, Java

Machine Learning & AI: PyTorch, Hugging Face Transformers, PyTorch Lightning, scikit-learn, timm

Data Science: NumPy, Pandas

Tools & Technologies: Git, Docker
